[in Baranidaran S](#) 🌐 [Portfolio](#)

Objective

As a MERN Stack Developer, I have 6 months of hands-on experience building responsive and interactive web applications using HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. With AWS certification and internship experience, I focus on delivering clean interfaces, seamless user experiences, and efficient full-stack solutions. I am passionate about both frontend and backend development and continuously strive to grow as a developer.

Certifications

AWS Certified Developer – Associate [🔗](#) ID: SN2JHZBLY2VQ18GG

Experience

Peopleclick Techno Solutions Pvt. Ltd, Full Stack Developer [Intern]

Bangalore, India
2023 – 2024

- Developed and maintained full-stack web application features using React.js, Node.js, Express.js, and MongoDB.
- Built and integrated REST APIs, enabling seamless communication between frontend interfaces and backend services.
- Managed cloud storage using AWS S3 for hosting and file management, improving application scalability and reliability.

Projects

AI-Powered Task Management Agent

Tools Used: MongoDB, Express.js, React.js, Node.js, Google Gemini API, JWT Authentication

- Developed a MERN-based task management application with JWT authentication and MongoDB.
- Integrated Google Gemini Function Calling for natural language task management.
- Implemented CRUD operations with task completion functionality.
- Designed a tool-calling workflow connecting Gemini, backend APIs, and MongoDB.
- **Live Link:** taskai-mern.vercel.app [🔗](#)

QR Code Generator Web App

Tools Used: Node.js, Express.js, HTML, CSS

- Developed a web application to generate QR codes from user-provided URLs.
- Implemented server-side QR code generation using Node.js, with routing and request, powered by Express.js.
- Ensured smooth user experience with validation of URLs and clear error handling.
- **GitHub Link:** [QR Code Generator](#) [🔗](#)

Data Management for S3

Tools Used: Data lifecycle management tools S3

- Developed a strategy to move data across different storage classes based on access patterns and frequency.
- Implemented automated lifecycle policies to archive or purge data.
- Ensuring optimal cost savings while maintaining data availability.
- **GitHub Link:** [AWS S3 - Project](#)

Portfolio Website

Tools Used: React.js,HTML,CSS,JavaScript

- Designed and developed a personal portfolio website to showcase my skills, projects, and achievements.
- The website features a clean, modern, and fully responsive layout, ensuring compatibility across various devices and screen sizes.
- Implemented interactive components and smooth navigation using React for an engaging user experience.
- Deployed the application on Vercel for fast and reliable hosting.

Education

MBA	[ALAGAPPA UNIVERSITY] , Karaikudi – Human Resource Management	2024 – 2026
	• Completed MBA with a focus on recruitment, employee engagement, and HR analytics.	
B.A	[The American College] , Madurai – English Literature	2020 – 2023
	• Completed Bachelor’s degree in English Literature	

Technologies

Front-end: HTML5, CSS3, JavaScript, React.js

Back-end: Node.js, Express.js

Database: MongoDB

Authentication: JWT (JSON Web Token)

APIs & Tools: REST APIs, Axios, Git, GitHub

AI Integration: OpenRouter API (LLM-based task analysis)

Cloud Platforms: Amazon Web Services (AWS)

- **Security:** IAM
- **Networking:** VPC
- **Storage:** DynamoDB, S3
- **Compute:** EC2, Lambda
