Baranidaran S Portfolio

Objective

As a MERN Stack Developer, I have 6 months of hands-on experience building responsive and interactive web applications using HTML, CSS, JavaScript, React.js, Node.js, Express.js and MongoDB. With AWS certification and internship experience, I focus on delivering clean interfaces, seamless user experiences, and efficient full-stack solutions. I'm passionate about both frontend and backend development and continuously strive to grow as a dedicated developer.

Certifications

AWS Certified Developer – Associate ID: SN2JHZBLY2VQ18GG

Experience

Peopleclick Techno Solutions Pvt. Ltd, Full Stack Developer [Intern] — Bangalore, India
Nov 2023 – April 2024

- Developed and maintained responsive front-end interfaces using HTML, CSS, and JavaScript, ensuring optimal user experience across various devices and browsers.
- Worked with MySQL for database management, performing tasks such as creating tables, writing queries, and maintaining data integrity in web applications.
- Configured and managed AWS S3 for secure, scalable storage—used for static web hosting, archival, and automated data lifecycle policies.

Projects

Portfolio Website
Tools Used: HTML,CSS,JavaScript

- Designed and developed a personal portfolio website to showcase my skills, projects, and achievements.
- The website features a clean, modern, and fully responsive layout, ensuring compatibility across various devices and screen sizes.
- Interactive elements, such as navigation menus and project showcases, provide an engaging user experience.
- Deployed on Netlify for easy accessibility.

Task Manager – MERN Stack Web Application
Tools Used: MongoDB, Express.js, React.js, Node.js, HTML, CSS, JavaScript

- Developed a full-stack Task Manager application using the MERN stack to create, view, and delete tasks.
- Implemented RESTful APIs with Node.js and Express.js and stored task data in MongoDB.
- Built a React frontend and used Axios for communication between frontend and backend.
- **GitHub Link**: Task Manager

QR Code Generator Web App
Tools Used: Node.js, Express.js, HTML, CSS

- Developed a web application to generate QR codes from user-provided URLs.
- Implemented server-side QR code generation using Node.js, with routing and request, powered by Express.js.
- Ensured smooth user experience with validation of URLs and clear error handling.
- **GitHub Link**: QR Code Generator

Data Management for S3
Tools Used: Data lifecycle management tools S3

- Developed a strategy to move data across different storage classes based on access patterns and frequency.
- Implemented automated lifecycle policies to archive or purge data.
- Ensuring optimal cost savings while maintaining data availability.
- **GitHub Link**: AWS S3 - Project

Education

MBA **[ALAGAPPA UNIVERSITY]**, Karaikudi – Human Resource Management 2024 – Present

- Pursuing MBA with a focus on recruitment, employee engagement, and HR analytics.

B.A **[The American College]**, Madurai – English Literature 2020 – 2023

- Completed undergraduate studies in English Literature

Technologies

Front-end : HTML5, CSS3, JavaScript, React.js

Backend : Node.js, Express.js

Database : MongoDB , MySQL

Version Control Systems (VCS): Git

Cloud Platforms: Amazon Web Services (AWS)

- **Security:** IAM
- **Networking:** VPC
- **Storage:** DynamoDB, S3
- **Compute:** EC2, Lambda
